

# Global Health Conversations

**Tuesday, February 7**

**5:30 - 6:30 pm**

**Farell Learning & Teaching Center, Room 214 | Medical Campus**

## The Mortality – Air Pollution Nexus and Actions to Mitigate Impacts

### Overview

**Dean Odegard**

*Dean is a second-year medical student who has helped in the establishment of One Health at WUSM, Wash U's student-led interest group in One Health, in 2015. To learn more, please visit: <https://onehealth.wustl.edu/>*

### Journal Club Presentation

**Kelsey Haddad**

*Kelsey is a third-year PhD student in the Energy, Environmental, and Chemical Engineering Department, whose thesis is focused on designing sensors for both biomedical and environmental monitoring applications. Paper: Addressing Global Mortality from Ambient PM<sub>2.5</sub> | <http://pubs.acs.org/doi/ipdf/10.1021/acs.est.5b01236>*

### Discussion Moderator

**Dr. Jay Turner**

*Dr. Turner is the Associate Professor in the Department of Energy, Environmental and Chemical Engineering at Washington University in St. Louis. The Turner group focuses on air quality planning and management, and on green engineering including life cycle assessments for processes and products. His lab leans towards applied research with applications to the interface between engineering and policy.*

**RSVP – [globalhealthconversations.eventbrite.com](http://globalhealthconversations.eventbrite.com).**

Walk-ins are welcome.

For questions, contact Wayne Warner at [wayne.warner@wustl.edu](mailto:wayne.warner@wustl.edu).

Food and refreshments will be served.

*Global Health Conversations is an exciting monthly forum for trainees, faculty and staff to engage in topics of interest to the global community. The event is organized by the Global Health Student Advisory Committee.*
